

MATLAB documentation guidelines

Make sure you have most recent copy of lgtools (Dropbox/DAG/Sources/lgtools)

1) After opening MATLAB

```
EditorMacro('Alt-Control-h', @createHeaderComment_dag);
```

Alternatively, add the above command to **startup.m**

2) PRESS Alt-Control-h while in MATLAB Editor (new or existing file)

This will add documentation template:

```
<code matlab> function ... = ...(...) %functionname - one line function description % % USAGE: %  
usage example1; % usage example2; % ... % % INPUTS: % input 1 - exlanation % ... % % OUTPUTS: %  
output1 - explanation % ... % % REQUIRES: ... % % See also ... % % % Author(s): I.Kagan, DAG, DPZ %  
URL: http://www.dpz.eu/dag % % Change log: % yyyyymmdd: Created function (Author(s) firstname  
familyname) % ... % $Revision: 1.0 $ $Date: 2015-08-07 18:27:53 $
```

```
% ADDITIONAL INFO: % ... %[DAG mfile header version 1]% <code>
```
