

MATLAB FieldTrip

Very important - please look at this link:

http://www.fieldtriptoolbox.org/faq/should_i_add_fieldtrip_with_all_subdirectories_to_my_matlab_path/

The issue with functions from /external replacing original MATLAB functions:

Use the following in your custom `matlab_path`

```
addpath('Y:\Sources\fieldtrip-20190130'); % or other path to fieldtrip
ft_defaults

[ftver, ftpath] = ft_version;
rmpath(fullfile(ftpath, 'external', 'signal'))
rmpath(fullfile(ftpath, 'external', 'stats'))
rmpath(fullfile(ftpath, 'external', 'images'))
```

... or just execute

https://github.com/dagdpz/test_FT/blob/master/test_FT_initialize.m on clean MATLAB path (i.e. without added FieldTrip)

http://www.fieldtriptoolbox.org/faq/can_i_prevent_external_toolboxes_from_being_added_to_my_matlab_path/
