

Registering a data acquisition card in matlab

- Open MATLAB with administrator rights Else you will get an error message like this: "Unable to load adaptor: C:\Program Files (x86)\MATLAB\R2010bSP1\toolbox\daq\daq\private\mwnidaq.dll. Driver files or DLL for the specified adaptor could not be found or are not installed."
- daqregister('nidaq') Replace 'nidaq' with the adaptor name. daqhwinfo('nidaq') will provide information about your registered adaptor ans.AdaptorDllName is the dll file name for your card
- Adding addressable ports: open /MATLAB/toolbox/daq/daq/private/mwnidaq.ini Replace 'mwnidaq.ini' with the dll name (ans.AdaptorDllName) Edit manually the part regarding the card specified as
